QACube Enterprise

See Your Quality Assurance Across Testing

QACube
Accelerate Reporting

QACube Enterprise gives you and your team **at-a-glance visual analytics for popular ALM/software testing and development tools** so you can see your testing results from requirements to defects to go-live. Quickly see up-to-date graphics on any number of projects, tools and technologies. One-Click, smart visual analytics for you and all Stakeholders to visualize QA on the desktop.

5 Key Things

1. Automates Data Consolidation and Aggregation
2. Delivers Predictive Analytics and Dashboards
3. Provides Visibility to all Stakeholders
4. Enables Transparency through the right KPIs
5. Supports Agile Software Delivery

Integrates with Bugzilla, CA Agile Central, Rally, Excel, GitLab, GitHub, Hewlett Packard Enterprise, Jenkins, Jira Software, Redmine, spiraTest, sonarqube, Tasktop, Tricentis, Visual Studio Team Foundation Server, XML, Xray

...and much more

Available on Cloud & Desktop.
