

UI/UX Designer

Novi Sad, Serbia | Full-time or part-time

Welcome to Your Future!

Introducing QACube, the Software Quality Platform for DevOps, that is transforming the unmanageable Big Data of QA into visual analytics in seconds. From an unlimited number of data sources, to powerful graphics in seconds, users can instantly see their software quality and make the right decisions. Our customers are among the leading global banks, financial services, insurance, telecom and large enterprises, and they all rely on QACube. In 2018, QACube was named one of the Top 10 BEST Solution Providers (Industry Era)!

Join our rapidly expanding team and develop customer-facing solutions across the Software Delivery Lifecycle (SDLC). If you love developing new things, finding potential issues, and want to work with a great team, then let's connect.

Job Description

- Be part of a Development Team developing a leading QA visual analytics and reporting platform for DevOps
- Cooperate closely with the team in Serbia and Switzerland
- Gather and evaluate user requirements in collaboration with product managers and engineers
- Design graphic user interface elements, like menus, tabs and widgets
- Develop UI mockups and prototypes that clearly illustrate how sites function and look like
- Create original graphic designs (e.g. images, sketches and tables)
- Conduct layout adjustments based on user feedback
- Adhere to style standards on fonts, colors and images
- Plan and implement new designs
- Optimize existing user interface designs
- Combine creativity with an awareness of the design elements
- Create prototypes for new product ideas

Qualifications

- Several years of experience as a UI/UX Designer
- Experience in working with Agile Development methodologies, Scrum in particular
- Strong written and verbal communication skills in English
- Team spirit and strong communication skills to collaborate with the stakeholders
- BSc in Design, Computer Science or relevant field
- Up-to-date knowledge of design software like Adobe Illustrator and Photoshop
- Experienced with front-end code with a portfolio to demonstrate your proficiency
- Proficiency in Photoshop, Illustrator, Visual design and wire-framing tools
- Proficiency in HTML5, CSS3, JavaScript is a plus
- Excellent visual design skills with sensitivity to user-system interaction
- Ability to solve problems creatively and effectively
- Up-to-date with the latest UI trends, techniques, and technologies

What we Offer

- Great Product Development Team
- Projects for leading enterprises and Financial Services customers

What we Offer, cont`d

- Work with the latest tools and technology
- High IT infrastructure standards
- Low stress and friendly working environment
- Knowledge sharing
- Great management – ready to listen and provide support
- Personal and professional development
- Innovative culture
- A flexible and open working atmosphere
- Recognition, opportunity for advancement and long-term service award
- Competitive salary and excellent benefits: e.g. private health insurance with 1 year of service, accident insurance 24/7, etc.
- Extra vacation days plus company days between New Year and Christmas
